## Study on Tri-Fortify®

Available only through health care professionals.

### RESEARCH EXECUTIVE SUMMARY

An in vivo 8-week study using Tri-Fortify® as the sole nutritional intervention was conducted to assess changes in intracellular glutathione absorption, natural killer cell function and oxidative stress markers. This research was conducted at the Penn State University College of Medicine.<sup>1</sup>

The researchers concluded that “The results of this pilot study demonstrate for the first time increased body stores of GSH after oral administration of liposomal GSH in humans...and the effects were seen as early as 1 week. In addition, liposomal GSH had positive effects on several GSH-related parameters, including decreases in biomarkers of oxidative stress and enhancements in immune function.”

#### Research Results:

- 28% increase in red blood cell glutathione levels (erythrocytes) (p<0.05)
- 400% increase in natural killer cell function (p<0.05)
- 25% reduction in lipid peroxidation (p<0.05)

#### GLUTATHIONE LEVELS\*

INCREASE IN RED BLOOD CELL LEVELS

#### NATURAL KILLER CELL FUNCTION\*

#### OXIDATIVE STRESS MARKERS\*

LIPID PEROXIDATION (Reduced cellular membrane oxidation)

**CLINICALLY RESEARCHED**

**ONE PRODUCT, TWO FLAVORS**  
THREE MECHANISMS OF ACTION!

**Tri-Fortify® Orange**  
48 Serving Tube Product No. RN136  
20 Pack Box Product No. RN138

**Tri-Fortify® Watermelon**  
48 Serving Tube Product No. RN152  
20 Pack Box Product No. RN154

**Tri-Fortify®**  
The Clinically Researched  
Liposomal Glutathione

**Supplement Facts**

Serving Size: 1 teaspoon (5 mL)  
Servings per Container: Approx. 48

	Amount Per Serving	% Daily **
Calories	30	
Total Fat	1 g	1%
Vitamin C (Ascorbic Acid)	50 mg	56%
Reduced Glutathione	450 mg	†

\*\* Percent Daily Value based on a 2,000 calorie diet  
† Daily Value not established.

**Other Ingredients:** Glycerin, medium chain triglycerides, phospholipids (soy), natural flavor.

**Contains:** Ingredients partially derived from soy and tree nuts (coconut).

Manufactured without milk, eggs, fish, crustacean shellfish, peanuts, wheat and gluten. Produced in a facility that may process other ingredients containing these allergens.

**Each Serving Includes:**

Features	Constituents/Actions	Benefits*
<b>Bolsters Antioxidant Action</b>	<ul style="list-style-type: none"> <li>Glutathione is a tri-peptide composed of the three amino acids L-glutamic acid, L-cysteine and L-glycine</li> </ul>	<ul style="list-style-type: none"> <li>Known as the master antioxidant because it recycles other antioxidants, such as vitamins C and E</li> <li>As glutathione exists within the cells, it is in a prime position to neutralize free radicals, which can build up in cells and cause damage</li> <li>The strong antioxidant effect of glutathione helps keep cells running smoothly</li> </ul>
<b>Promotes Detoxification</b>	<ul style="list-style-type: none"> <li>Glutathione also helps the liver remove chemicals that are foreign (xenobiotics) to the body, such as drugs and pollutants</li> <li>Highest amounts of glutathione are found in the liver and kidneys, which are responsible for the removal of toxic components</li> <li>Glutathione is also present in high amounts in the lung lining</li> </ul>	<ul style="list-style-type: none"> <li>Unique ability to bind to toxins, heavy metals, solvents, and pesticides - and helps the body excrete these substances in either urine or bile</li> <li>Protects against airborne pollutants, and in the intestinal lining, where it bars the absorption of industrial chemicals</li> </ul>
<b>Fortifies Immune System</b>	<ul style="list-style-type: none"> <li>Glutathione is required to maintain the normal function of the immune system</li> </ul>	<ul style="list-style-type: none"> <li>Plays a critical role in the proper function of white blood cells, including T cell lymphocytes and the multiplication of lymphocytes (the cells that mediate specific immunity)</li> <li>Adequate function of white blood cells is essential in mounting an effective immune response</li> <li>Many chronically ill patients have depleted levels of glutathione</li> </ul>

**Heat Stable**

We subjected Tri-Fortify® to 104 °F/40 °C and 75% Humidity for 90 consecutive days and the product still exceeded label claim.

**Suggested Use**

As a dietary supplement, gently squeeze the tube to fill 1 teaspoon (5 mL), or open a single serving packet. Hold under tongue for 30-60 seconds and then swallow, or use as directed by your health care professional. Additional doses may be taken.

**Shake tube well before use.**

**Cautions**

If pregnant or nursing, consult your health care professional before use.
